

## Job Description: Senior ERP Implementation Consultant

**Location:** United States (with regular client visits)

**Experience:** Minimum 10 years of experience with Microsoft Business Central / Dynamics ERP implementations

**Overview:** We are seeking an experienced senior (Lead) ERP Implementation Consultant to join our team. The ideal candidate will have extensive experience in leading ERP implementation projects and will serve clients across the United States. This role requires regular travel to client sites and the consultant will be billable to the client.

### Responsibilities:

#### 1. Project Planning and Management:

- Develop detailed project plans, including timelines, milestones, and resource allocation.
- Coordinate project activities and teams to ensure goals are met on time and within budget.

#### 2. Client Engagement:

- Maintain regular communication with clients to discuss project status, progress, and any concerns.
- Serve as the primary point of contact for clients throughout the implementation process.

#### 3. Business Process Analysis:

- Work closely with clients to understand their business processes and requirements.
- Conduct thorough analysis and provide recommendations for process improvements and ERP system configurations.

#### 4. System Configuration and Customization:

- Configure and customize the ERP system to meet client-specific needs.
- Ensure that the system is set up to optimize business processes and enhance efficiency.

#### 5. Data Migration and Integration:

- Oversee data migration activities, ensuring data accuracy and integrity.

- Manage system integration tasks to ensure seamless connectivity with other systems.
- 6. Training and Support:**
- Develop and deliver training programs for end-users to ensure successful adoption of the ERP system.
  - Provide ongoing support and troubleshooting during and after the implementation.
- 7. Quality Assurance:**
- Conduct thorough testing of the ERP system to ensure it meets client requirements and quality standards.
  - Identify and resolve any issues that arise during testing.
- 8. Documentation and Reporting:**
- Prepare comprehensive documentation, including project plans, status reports, and user manuals.
  - Provide regular updates to stakeholders on project progress and any issues encountered.

**Requirements:**

- Minimum 10 years of experience in ERP implementation.
- Strong understanding of business processes and ERP systems.
- Excellent communication and interpersonal skills.
- Willingness to travel regularly to client sites across the United States.
- Ability to work effectively in a dynamic and fast-paced environment.
- Experience with data migration, system integration, and customization.
- Strong problem-solving and analytical skills.

**Offer:**

- A challenging and dynamic work environment.
- Opportunities for professional growth and development.
- Competitive salary and benefits package.
