

WEERT

ERP IMPLEMENTATION CONSULTANT MICROSOFT BUSINESS CENTRAL

Location : Weert, Netherlands
Employment Type : 32–40 hours per week
Start Date : ASAP

About OVO-Vision

We are a leading provider of ERP software for the global food industry, with a specialization in the egg and poultry sector. Our solutions are built on Microsoft Dynamics 365 Business Central and are used worldwide. To strengthen our implementation team, we are looking for an experienced and customer-focused implementation consultant with in-depth knowledge of Business Central or the Egg and Poultry industry.

About the Role

After a comprehensive onboarding and training program, you will become a trusted OVO-Vision expert, responsible for successfully implementing our solutions at customers worldwide either independently or as part of a project team.

As a Software Implementation Consultant, you are the vital link between our technology and the customer's business. You understand their processes, translate their requirements into practical solutions, and clearly demonstrate how OVO-Vision creates real value in their day-to-day operations.

You take ownership of your work and operate with a high degree of independence. At the same time, successful implementations are a team effort. Together with fellow consultants and the Project Manager, you ensure every project is delivered according to scope, quality, timeline, and customer expectations.

Your goal is not simply to implement software—it is to help customers work smarter, gain better control of their operations, and get the maximum value from OVO-Vision.

Your responsibilities

- Analyze customer processes and translate requirements into practical solutions.
- Configure and implement OVO-Vision according to the agreed scope.
- Advise customers on process improvements and best practices.
- Support data migration, integrations, testing, and validation.
- Train and guide key users throughout the implementation.
- Identify risks, issues, and opportunities and proactively propose solutions.
- Work closely with the Project Manager, consultants, and developers.
- Take ownership of assigned tasks, deadlines, and deliverables.
- Support customers during go-live and transition to daily operations.
- Act as a trusted advisor and help customers maximize the value of OVO-Vision.

Your profile

- Minimum of 5 years of experience in an ERP consulting, implementation, or support environment.
- Strong knowledge of Microsoft Dynamics 365 Business Central, preferably both cloud and on-premise.
- Solid understanding of business processes such as finance, logistics, production, purchasing, and sales.

- Strong analytical and problem-solving skills, with the ability to translate business requirements into practical solutions.
- Excellent communication skills in Dutch and English, both verbal and written; German is a plus.
- Customer-focused, with the confidence to advise, challenge, and guide customers when needed.
- Proactive and solution-oriented, with a strong sense of ownership and responsibility.
- Structured and accurate, with the ability to manage tasks, priorities, and deadlines.
- A strong team player who works effectively with consultants, developers, project managers, and customer teams.
- Curious and eager to learn, with an interest in technology, business processes, and the egg and poultry industry.
- Flexible and internationally oriented, and comfortable working with different cultures and organizations.
- Bachelor-level working and thinking ability, preferably in Business Administration, Logistics, IT, or a related field.

What we offer

- A varied and responsible role within a stable, growing, and internationally active software company.
- Work with a modern ERP platform and customers across the egg and poultry industry.
- A high degree of independence, combined with the support of an experienced and committed team.
- Flexible working hours and a hybrid working environment, with much of the collaboration taking place via Microsoft Teams.
- Competitive salary and an attractive benefits package.
- Opportunities for professional training, Microsoft certification, and continuous personal development.
- The opportunity to deepen your expertise and grow within the organization.
- An informal, professional working environment with short communication lines and room for your own initiative.

Interested?

Send your CV and motivation to g.vandebeek@ovo-vision.com and become part of our team that takes ERP solutions to the next level.
